Transition to the second year of the course and progression throughout the course depends on satisfactory participation and on showing an aptitude for the ministry of Spiritual Direction.

Participants who do not fulfil these requirements will not progress to the completion of the course. This decision will normally be made at the end of the first year, but because of the interactive nature of the course, it is a decision which may be made at any time. A participant will ordinarily be given clear advance indication by his/her supervisor if the required interviews and ongoing assessments demonstrate a potential for such a decision.
